Reiki is more than just a modality to acquire but a way of life!

I come together with others to share & express love.

I do not hold all the answers but I share what is known to me

Reiki is part of who I am.

I am life, I am breath, I am love

Reiki constantly wakes me from my illusion of separateness. Reiki to me, is simply Love!

My name is Tammy Jones. I have been working in the spiritual industry for many years and have studied many philosophies & teachings. I am a practicing Holistic Counsellor, Meditation Facilitator, Theta Practitioner, Angel Intuitive & Reiki Teacher/ Practitioner, I have studied various other spiritual healing modalities such as Ra Sheeba, Magnified Healing & Sei Chim, always finding my path leads to Reiki. I have also studied Certificate IV in Workplace Training & Assessment to further my knowledge in training. Reiki is the *one* essence, an expression, manifestation of the source. When I sit with another, my heart is open, I am willing to learn and experience with others. For me to receive and facilitate Reiki healings & teachings; inspires, soothes, calms and brings peace to my conscious-
